CLIENTS SPEAK

“

“Purple Quay ideated and developed a wonderful LMS software product for our users. This LMS will help to educate and train illiterate migrant women to sell clean energy products and transform them into entrepreneurs. This product continues to enable over 800 women to build their micro-business and be self-employed.”

*Founder and CEO
Social Enterprise, Melbourne*

“

“I want to thank you all for achieving this. These are the highest quality accounts that we’ve published for a year end in the time I’ve been at this brand for these long years. It has been a huge effort by everyone, and we’re really well placed for the audit in September. This also sets up finance to have a really great FY2022. You guys have significantly contributed to us being able to achieve the below for year end. Either by directly assisting us with some items or indirectly taking the pressure off the core team in other areas. A massive thankyou!

*Founder and Director
Large retail enterprise, Sydney & Other locations*

PURPLE QUAY

VCFO SERVICES

- VCFO services power Accounting Firms & Businesses with unique & custom solutions with the 360° plus delivery model.
- The expertise include solving client challenges through ideation, solutioning and rapid implementation.
- The Team provides support that drives performance in a wide range of industries at varying stages of growth. We provide operational support in optimizing processes and best practices ensuring timely monthly reporting.

VCFO SERVICES

Analytical

- Budget and Break-Even Analysis - It helps a business to allocate resources, evaluate performance, and formulate plans to move beyond what is visible.
- Budgeting and Forecasting - The budget we prepare include details about the company's revenues, expenses, cash flow and financial position. A long-term forecast might be executed for several years to feed the business plan
- Variable vs Fixed Expense Reporting - Virtually every business has variable expenses, which move up and down in tight proportion and Fixed operating expenses include many different costs that may need a major surgery to keep cost in place

Advisory

- Company-wide KPIs - Targets, Critical Numbers and KPIs. Each measures a different component of the current and long-term success of your company. Establish and review KPI's each month.
- Growth Plan - An agile and able to adapt to market conditions and changes with short sprints in 90-day cycle with rapid execution on real time targets
- Improve Profitability - Increasing your profitability is to be more effective in investment on long term goals, cut cost at the expense of the goals
- Business Performance Health Check– Performance Analysis is helps to build a strong team that work with focus and delivery driven objectives

VCFO SERVICES

Regulatory

- Business Tax Return and Business Activity Statements - We take care of this compliance part at its whole until the last leg
- Fringe Benefits Tax—We advise business on eligible expense on their incentive plan and ways to avoid overpaying FBT
- Financial Analysis - Financial analysis involves using financial data to assess a company's performance and make recommendations about how it can improve going forward
- Helps depicting the outcome of Sale of property during ongoing financial year. The application of concessions and discounts if any, on the CGT event will be considered as we progress.
- Timely communication of ATO liabilities and outcome of Assessment. Management of accurate client data with ASIC and updated Group Structure. Regular e-mail updates and reminders to keep you/clients informed of relevant tax issues.

Reporting

- Management report package helps to track progress and growth, identify trends or any irregularities that may need further investigation.
- Operational reports show the efficiency in operating and will recommend ways to further improve profitability.
- Tax Planning & Advice - Planning the tax before the year end to keep it at minimum is one of the preliminary role of a CFO. Setting up scenarios/strategies that yield the lowest cash outflow on account of tax.

RADA | Women At Work

Our Women at Workplace program RADA (Raise & Develop Association) is more of a movement than a mere formality. It was initiated and curated by Jonah Stephen in 2013. Our vibrant team of professional women weave out well-planned activities around the year that energize and engage the women at work and everyone in the organization. RADA strives at enabling working women to develop confidence, share knowledge, unleash passion, and enhance their potential at work, in family, and in society.
